**OBJECTIVE OWNERS:** Crime Commission, City of Memphis, and Shelby County

OUTCOME: Obtain a solve rate to the satisfaction of PJA leadership of at least 80% for complaints brought to the NSI as priorities, with a median turnaround time of no more than 90 days. Only up to 3 blight/3 crime cases per PJA per month are being followed, with "closed" date reflecting PJA leadership satisfaction that the matter is resolved within a 12-month period. "Litigation" means the case was referred to the Environmental Court for further action and could be active or concluded. This result may differ from what a review of 311 records would show. 2020 numbers include many cases which have not ripened for full comparison. The number of resolved cases and therefore percentage of 2020 cases closed within 12 months will increase going forward into 2020. See the second chart that provides a more direct comparison in terms of how many cases close within a certain amount of time.

### Goal C: : Strengthen intervention programs for ex-offenders.

Objective 1: In order to increase their chances of breaking the cycle of crime, implement a jobs program for high-risk ex-offenders that adds a transitional work feature to the more traditional program elements of job placement, life skills and mental health support.

OBJECTIVE OWNERS: Shelby County Office of Re-entry, Workforce Investment Network/ Center for Employment Opportunities

#### OUTCOME: Place participating ex-offenders into permanent jobs and maintain a repeat offender rate below the overall county-wide rate.

The charts for this outcome relate to both the Shelby County Office of Reentry (SCOR) and the Center for Employment Opportunities (CEO). The two entities have different types of measurements, so the charts do not contain exactly the same information. SCOR is a county government agency. CEO is funded through the Workforce Investment Network, a regional agency operated by county government. SCOR data reflects ex-felons seeking work who are SCOR clients (at least two encounters in a 90-day period) and who are at medium to high risk of reoffending based on an established risk assessment tool. Some clients may find permanent employment in the calendar year following their date of enrollment. For CEO, the "sustained full-time employment" category means the participant has maintained employment over a 12-month period. The CEO program is still too new to draw any conclusion as to whether it is meeting its stated goal of 90% placement in permanent jobs. The average hourly wage earned from CEO participants is \$11 an hour.

For 2019, 90 ex-felon clients graduated from FOCUSED, a training program. As of the end of 2020, 54 (60%) were employed. In 2020, 42 ex-felon clients graduated from FOCUSED. As of the end of 2020, 36 (71%) were employed. Source: Shelby County Office of Reentry.

### Goal D: : Enhance domestic violence prevention and intervention efforts.

Objective 1: Evaluate and expand the success of the Family Safety Center in reducing re-victimization.

**OBJECTIVE OWNERS:** Family Safety Center, Crime Commission

#### Outcome: Increase the number of FSC clients reporting improved outlooks on the Herth Hope Scale.

This scale measures outlook and is an examination of a client's level of hopefulness immediately before and immediately after seeing an FSC navigator. This measure assesses change in client's future goals, positive outlook, sense of direction, and belief that life has value and worth. FSC implemented use of this scale as a metric during the 3<sup>rd</sup> quarter 2017. Improvement is measured by increasing scores.

### Goal D: : Enhance domestic violence prevention and intervention efforts.

Objective 2: Effectively implement a "domestic violence initiative (DVI)" model in which multiple law enforcement agencies team up with community members and social service providers to deal with repeat domestic violence offenders with a "carrot and stick" model.

**OBJECTIVE OWNERS: District Attorney's Office** 

#### Outcome: Reduce the number of offenders with prior domestic violence convictions by at least 25% by 2021.

(Note: the DVI initiative was in planning stages in 2017 and 2018 and was implemented in the 4<sup>th</sup> quarter 2018 with a first "off" cohort—those not receiving the DVI intervention. The first "on" cohort took place during the 1<sup>st</sup> quarter 2019, with the first "call-in" meeting held on April 16, 2019 for those individuals meeting the criteria during the first quarter. Because of COVID-19 a scheduled July 2020 call-in was postponed. A call-in was conducted in October.
